Gets Poor Grades - most recent report card results

small progress

Has Been Tested for Special Education

2019

Currently is Placed in Special-Education Class

Type of Class: Learning center at Franklin Elementary . It's where kids go to get one on one help with regular class work and work on skills that they are lacking.

Hours per Day: About 2 hours

Dislikes Going to School**Is Absent From School Frequently**

She logs out of her zoom class. and blames it on " the internet" .

Concerns about the quality of this child's school or teachers:

The pull outs for her IEP is pretty worthless... and maybe thats because Simone is tired of distant Learning so she doesn't try hard but that looks to them like she isn't progressing so they ask her to repeat lessons over and over... she continues to get more bored. All the teachers are over worked and over tired with distant learning.

ADDITIONAL COMMENTS

No additional comments were provided.

The Behavior Assessment System for Children, Third Edition (BASC-3) is an integrated system designed to facilitate the differential diagnosis and classification of a variety of emotional and behavioral disorders of children and to aid in the design of treatment plans. This computer-generated report should not be the sole basis for making important diagnostic or treatment decisions.
